What is eXception?

eXception is a web-based tool that partners with your DMS technology to extract key transactional data for effective dealership management review. This provides dealers with efficient management of their financial internal controls bolstered by our Dixon Hughes Goodman Dealer CPAs extensive dealership knowledge and experience.

How does it work?

eXception searches for irregularities, inconsistencies and potential inaccurate transaction activity. Every morning you can receive a comprehensive, easy-to-understand report via email. Through the software you can drill down into the detail of the findings in the report. It is that simple.

Why should you use it?

Dealers work too hard not to protect the money that has been earned. The combination of **eXception** working with the DMS technology and Dixon Hughes Goodman's more than 79 years of serving dealers across the country collectively provides your dealership with an effective, efficient and **eXceptional** tool to help manage the dealership's financial internal controls.
