

ACCOUNTING TECHNOLOGY, LLC

Accounting Technology, LLC, is a business management consulting firm serving Virginia, Maryland and the Greater Washington D.C. Metropolitan area. Our team of technology professionals and Certified Public Accountants specializes in the selection, implementation and training of popular mid-range accounting business software packages, and developing optimum computer and network strategies for our clients. The company is closely aligned with Goodman & Company.

Accounting Technology is a Certified Best Software Partner

With over 1.7 million customers just in the United States and over 25 years experience, Best has been developing, supporting, and offering award-winning automated solutions and services that have revolutionized the way small and medium-sized companies do business in today's marketplace.

As a company, it is critical to us that our clients are completely satisfied with the selection and implementation of their accounting systems. It is our goal to ensure this satisfaction as well as to develop lasting business relationships with our customers. We achieve these goals by:

- Selecting and setting up software to match client's business needs – both current and long term
- Emphasizing training of clients' staff in use of software and technology platforms
- Staffing all engagements with CPAs and technology professionals experienced in accounting and reporting matters as well as software capabilities
- Providing technical support to end-users

Training Services

Accounting Technology, LLC, also operates a classroom-style computer software training center where we emphasize:

- Small class sizes
- Student/instructor interaction
- "Hands-on" training for the student

The training center facility also serves as a meeting place for "users' groups" to share ideas and experiences in the use of various accounting software systems.

Software Solutions

Accounting Technology, LLC, is the authorized reseller of quality accounting packages including:

MAS 90/MAS 200

MAS90 is industry-leading accounting, distribution, manufacturing and e-business management software solution for small to medium-sized companies with 10 to 500 employees. Recommended by more CPAs than any other application in its class, this product suite offers a broad selection of feature-rich modules that empower customers with the ability to manage and grow their businesses more effectively. A more powerful addition to the product line is MAS200. This client/server application incorporates thin-client technology, resulting in more efficiently distributed processing, high performance, enhanced data integrity and reliability, remote access support, and scalability.

Enhancements:

PM2002 for Property Management
S-2 Incorporated Government Contractors

MAS 500

MAS 500 (formerly Best Enterprise Suite) is a highly reliable, robust and integrated series of application covering all areas of business for the enterprise of 20 to 15,000 employees. These areas include customer relationship management (CRM), accounting and financials, project accounting, distribution, manufacturing, human resources, payroll, enterprise reporting, and electronic commerce. Built from the ground up for the needs of an integrated enterprise, MAS 500 is flexible, scalable and full-featured to deliver a total business management solution.

BusinessWorks Gold

BusinessWorks Gold bridges the gap between off-the-shelf, entry-level products and complex high-end systems. Its modular design is ideally suited for growing small and medium-sized businesses requiring more muscle than basic bookkeeping software can provide. Typically with 5 to 50 employees and \$500,000 to \$5 million in annual revenue, BusinessWorks Gold customers enjoy a full-featured system that provides exceptional power and flexibility at a fraction of the price of other accounting software packages. With 11 fully integrated modules, BusinessWorks Gold is easy to learn and has been consistently ranked number one in ease of use in an independent survey.

Peachtree Accounting 2004

Peachtree Accounting 2004 is the easy-to-use accounting solution packed with everything a small business needs to manage their business as well as business analysis tools to grow their business. It has all the accounting features you need such as: General Ledger, Accounts Payable, Accounts Receivable, Inventory, Payroll, Job and Project Tracking, Account Reconciliation, Business Reporting, Invoicing, and Check Writing.

Peachtree Complete Accounting 2004

Peachtree Complete Accounting 2004 is a comprehensive accounting solution for small businesses that need extras such as Audit Trail, Fixed Assets, Time and Billing and Job Costing to help them break down jobs into phases (i.e., construction).

HR/Payroll

Abra HR provides many benefits, but the most impressive feature is providing a means to quickly access key data with minimal effort. HR personnel are just keystrokes away from viewing data like emergency information or performance reviews due for any employee. The ability to promptly analyze critical company data is also within reach, including salaries, turnover ratios and performance issues.

Fixed Asset Management

Delivering powerful, easy-to-use fixed asset management tools to businesses of all sizes, FAS combines three powerful applications to give you total control over your fixed assets throughout their entire lifecycle. Based on an easy-to-learn, intuitive user interface, FAS is the most comprehensive fixed asset management solution for asset depreciation, inventory tracking, and custom reporting – all at a price your business can afford.
