

Dixon Hughes Goodman understands the highly competitive and demanding concerns of our clients and helps make strategic decisions to maximize the financial goals of their businesses. With nearly 80 years of experience, we combine responsive, personal service with the strength of a top 15 U.S. accounting firm. Our objective is to customize your tax approach and results to meet your business needs.

Tax Credit Advisory Services

Dixon Hughes Goodman's Tax Credit Advisory Group is committed to providing clients with a team of audit and tax professionals dedicated to serving as successful tax credit advisors. We pride ourselves on knowing the renewable energy tax credit industry, how to navigate complex transactions that are often needed to get a project completed, and networking with other professionals to make sure we stay abreast of hot topics and industry trends.

Renewable energy projects can be very complicated and often require many parties coming together to achieve the ultimate goal of completing a sustainable energy project. Our professional team understands that process and will help achieve your goals by working with you every step of the way.

We have in-depth knowledge and extensive experience in the following types of credits and grants:

- Federal Section 48 Income Tax Credits
- Federal Section 45 Production Tax Credits
- Section 1603 Grants
- State Energy Credits
